New food waste caddies designed for kitchen and kerbside use

Food waste caddies that offer a practical solution to food waste recycling, keeping contents secure until collection day.

The caddy features a lockable handle and a wide aperture to easily empty food into the container and is available in both 7 (max. weight 5kg) and 23 litre models (max. weight 15kg). Both also feature a reinforced design with strengthened impact columns, an easy clean smooth interior, are dishwasher proof and tested to -18°C and +40°C.

They are also made here in the UK from 100% recycled plastic and are 100% recyclable.

Features & Benefits

Recycled plastic

Recycle

Made in Britain
