SLANT6 URINAL SCREEN

AT A GLANCE

Up to 5x more fragrance than competing products

Biodegradable* (contains Ecopure)

Virtually Zero Splash
Slanted Bristle design, keeps walls, floors and trousers dry

Compatible with all urinals incl waterless & urinal sleeves (domes)

Made from fully recyclable EVA

Double-sided anyway-up design for correct install every time

The Slant6 from P-Wave® is another huge step forward in terms of urinal deodorising technology. With the same high fragrance load you'd expect from P-Wave® urinal screens, the Slant6 consistently outperforms many other 30 day urinal mats and best of all, will keep walls, floors & trousers dry, thanks to the unique virtually 'zero splash' angled bristle design.

At P-Wave® we're passionate about the environment and that's why, despite being one of the most fragrant 30 day urinal screens on the market, the Slant6 also has a lower plastic content than many others and whilst the product is 100% recyclable, it also contains the Ecopure™ additive for faster biodegradation should it find its way to landfill*. As with all P-Wave® urinal screens, beneficial bacteria help deodorise the drain below the surface and the Slant6 is compatible with waterless urinals, bio blocks and is low in VOC's (volatile organic compounds).

Also available

*ECOPURE™ TREATED PRODUCTS SHOW SIGNIFICANTLY ACCELERATED BIODEGRADATION COMPARED TO UNTREATED PLASTICS. THE SLANT6 IS CURRENTLY UNDERGOING INDEPENDENT PLASTIC ANAEROBIC BIODEGRADATION TESTING (ASTM D 5511) BY EDEN RESEARCH LABORATORY AND IS SHOWING 68.9% BIODEGRADATION IN UNDER 5 YEARS. WE ARE CONTINUING TO TEST AND, BASED ON PREVIOUS LAB RESULTS, EXPECT THAT BIODEGRADATION WILL INCREASE FURTHER. FINAL BIODEGRADATION RESULTS ARE AFFECTED BY LOCAL ENVIRONMENTAL CONDITIONS.

PASSIVE AIR FRESHENER RANGE

P-WAVE®

The highly fragranced, recyclable solution to air freshening
