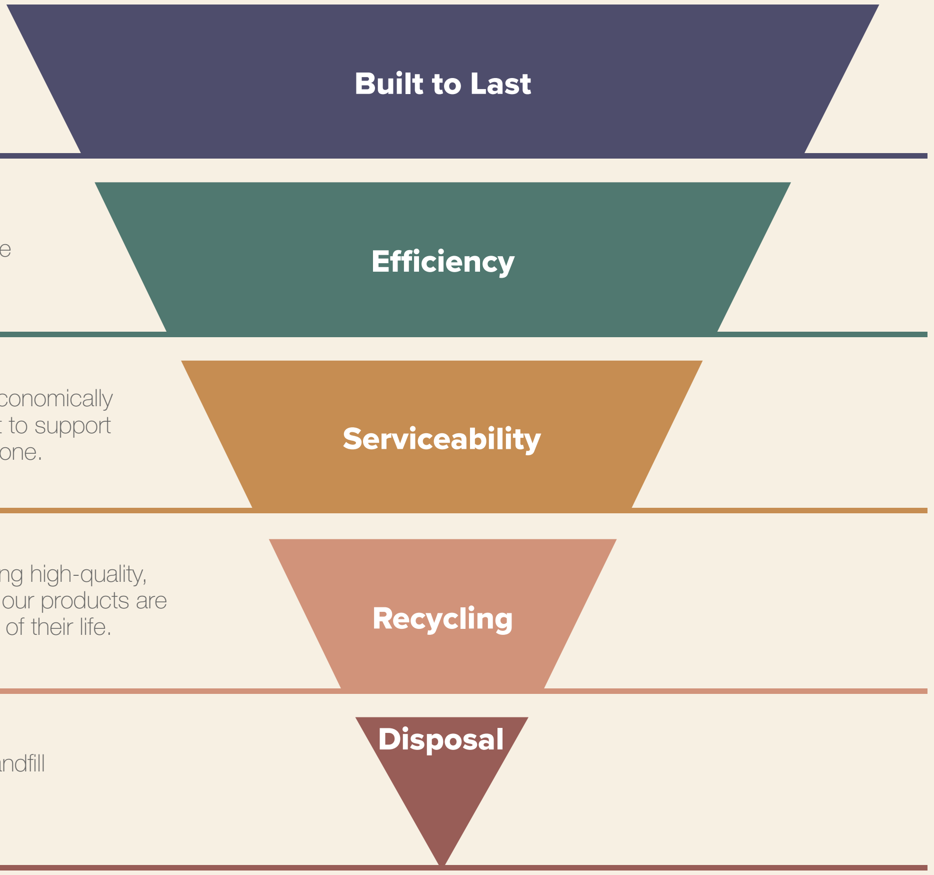
Sustainability Formula

The Numatic Sustainability Formula is the foundation to all our product development and sustainable initiatives.



Built to Last

Our products are built to last with tried, tested and trusted designs, ongoing innovations and a commitment to developing sustainable cleaning solutions.

Efficiency

We ensure our products are the most efficient for every user; from water and detergent usage to electricity consumption.

Serviceability

Our products are designed to be easily and economically serviced throughout their lifecycle. We commit to support every product we have ever made, since day one.

Recycling

We are committed to developing products using high-quality, recycled plastic. Right from their initial design, our products are manufactured to be easily recycled at the end of their life.

Disposal

We work hard to ensure zero waste goes to landfill and have achieved this since 2017.

Integrated Sustainability

We recognise the need and demand for sustainable cleaning solutions and commit to initiatives across our business.

A sustainable approach is integrated throughout all of our operations, from design to manufacturing, to distribution and when in use. Our teams always strive to innovate and introduce even more sustainable manufacturing practices at our 42 acre site in Somerset, United Kingdom.

- Extensive Solar Investment
- Resource-Efficient Technologies
- Zero Waste to Landfill
- Sustainable Product Lifecycle
- LED Lighting

From 2024 Numatic has reached carbon neutrality for Scope 1 and 2 emissions, marking a significant milestone in our commitment to sustainability.

We support the following **Sustainable Development Goals (SDGs)** of the United Nations:

- 3 GOOD HEALTH AND WELL-BEING
- 5 GENDER EQUALITY
- 6 CLEAN WATER AND SANITATION
- 9 INDUSTRY, INNOVATION AND INFRASTRUCTURE
- 10 REDUCED INEQUALITIES

ReFlo
TECHNOLOGY

ReFlo Technology
Many of our products are made using ReFlo recycling plastic reducing the use of virgin plastic wherever possible, whilst maintaining the same quality and durability in our products. ReFlo Technology uses high-quality, post-industrial and post-consumer plastics across the Numatic range.

Following extensive research and testing, we have introduced ReFlo Technology to our FloorCare range, joining our VersaCare Janitorial and CleanCare Vacuum ranges.

> Made from the highest quality, recycled plastic.

The Bigger Picture
We've partnered with **charity: water** to provide water to communities and projects that need it the most. Through every purchase of a 244NX, we donate the equivalent of 5000L of water.
Nepal, Piped system tap stand

Working in partnership with:
charity: water

Our most recent completed project took place In Nepal, positively impacting a total of 596 people.

> Over **100 MILLION** Litres of water funded since launch in 2021.

Every 244NX provides 5000L of water to communities that need it.

Not Just Any Offsetting
We've been reducing our carbon footprint and offsetting global bag sales since 2020. We've partnered with a leading company in carbon offsetting innovation, C Level.

TARGETS AND INITIATIVES

We recognise the need and demand for sustainable cleaning solutions and commit to initiatives across our business.

Net Zero by 2035

This includes becoming Net Zero by 2035 (for Scope 1 and 2), setting incremental targets to keep us on track. Numatic has joined the Science Based Targets Initiative (SBTi), setting ambitious emissions reduction targets in line with the latest climate science.

While we work on reducing our emissions, we have taken additional measures to reduce our impact on the planet by carbon balancing our Scope 1 and 2 emissions through our trusted offsetting partner, C Level.
